1

Treat Pinterest As A Search Engine

Pinterest has a huge amount of domain authority on Google. No this does not mean if you pin the same link to your board multiple times you will increase your search ranking BUT if you optimize your board description AND pin interesting content which others find helpful or interesting, it'll naturally get repinned a lot and consequently increase traffic. With increased traffic, you'll automatically land a higher page rank on Google.

For example, if you search for “Email Marketing”, you will most likely get boards & pins based on those keywords on the first page of Google. SO, you want to make sure that your board description is filled out entirely with not only a conversational tone explaining what the board is about but also keywords that match the niche of the board too.

2

Use Keywords To Your Advantage

I mentioned keywords above so let's take a second to go over specifically what I mean by that.

The keywords that you want to be found for should be present in your board titles and descriptions. This is how your audience, old and new, will find you. Make sure you spend some time with this and do it right. You do NOT want to 'cheat' the system by adding multiple niches and terms to 'cast a wide net' so to speak. You want to be specific and strategic with keywords.

For example since I offer specific services to Pinterest, I want to specifically target people interested in Pinterest management. I find the best keywords by going into the top search bar of the Pinterest platform and start typing in what I think would be a good term/phrase to use, and then Pinterest shows me their suggestions based on my search!

How cool is that!

There's so much to think about and there is a lot that seems up in the air. The good news is, you can be found first! [CLICK HERE to learn more about keywords & ABC search!](#)

CONTENT SOURCING

Where can you find content to share? There are so many places you already have loads of content posted that you can share on Pinterest for wider visibility. For example: Instagram, LinkedIn, Blog & more! List them below:

VIDEO CONTENT

DO YOU HAVE VIDEO CONTENT YOU CAN REPURPOSE?

Video Pins are a great format for sparking a new idea from how to make a recipe or how to style an item of clothing in multiple ways, to showing a compilation of clips of a top travel destination. Pinner's love to see video tutorials – searches for 'inspirational videos' have risen 31% since last year.

Video Pins shine through for educational content, like tutorials, how-to's, and recipes. The added value makes it more likely that a user will save it to one of their boards – a positive indicator to the Pinterest algorithm that will boost your Pin in future search results.

Here is a walkthrough I recorded of the things to make sure you do and don't do when uploading a video pin to Pinterest. [CLICK HERE!](#)

You can also use Video Pins to drive viewers elsewhere, such as your YouTube channel, website, or product pages. Once a viewer has engaged with your video content, they're far more likely to click through the Pin's link – which can be great for cross-promotion and sales.

Pinterest is THE BEST way to get... connected with people before your competition, establish yourself as an industry leader in your niche, and save oodles of time in your day while still reaching the masses so that you can sky rocket your leads and sales! - Laura

06

Consistency Is Key

Successful brands on Pinterest pin up to 20 to 30 pins a day.

WRONG!

You don't have to pin a certain amount per day - you just have to be consistent. So if you don't have a blog, or maybe you don't have a ton of content... NO PROBLEM! Start small with 1 pin a day and build from there as you generate more content that converts.

Look into the list of [approved schedulers here](#) so that you can also save time by scheduling out a week or two in advance. You MUST use one of their approved vendors though or you run the risk of getting your account shut down entirely.

Here is a walkthrough I recorded of how to schedule pins on Pinterest without a scheduler. [CLICK HERE!](#)

Now that you have done your assessment of content you have to pin, pick the amount per day that works for you and start pinning! <3

CONGRATS, YOU'VE DONE IT!

You have completed three major steps to move you forward and jumpstart your client attraction machine on Pinterest!

BUT NOW...

WHAT'S NEXT?

The astounding amount of people who use Pinterest is only one of the best parts about it. Not only that but **the number of entrepreneurs using it is dismal, meaning it is an open untapped resource just waiting for you to rock it!**

Most companies and marketers are focused on Facebook because that's where they see the big numbers. But remember, it isn't just about big numbers, it's about attracting quality leads with meaningful content. Not only can you do that on Pinterest, but you can do so in an environment with **very little competition.**

Let's set up a **personalized strategy for you** in the Pintastic Rockstars program that will help you breakthrough into an untapped potential in your business, elevate your traffic and most importantly generate more sales! **This strategy will be easy to maintain and stay consistent, while raking in the leads and sales you strive for!**
